Forms and assessment instruments for clinical students at practicum sites must be obtained through the Assessment Requests form located on the library web page. Tests not distributed through the class have a loan period of 1 week. They are available to students for use in classes. Kits and tests may include an inventory sheet detailing the contents of the kit/test. The inventory sheet must be filled out before checking the kit/test out and upon returning the kit/test. Holds will be placed on student's account prohibiting them from being able to register, if one of the above payment options is not in place by the student's prescribed time ticket. This could cause the student to lose their priority. Additional holds may be placed on a student's account from other departments that would prevent a student from participating in priority registration.

#### Add/Drop Registration

The Student Services Office strongly urges all students to complete their entire course schedule during the official registration period. Most courses are closed by the end of that period. This does not include students dropping a course to take a temporary withdraw or to withdraw from the institution. Students withdrawing from the institution will receive refunds based on the institutional refund policy.

Students who wish to drop a course after the course term has begun must obtain the signature of their faculty advisor. Students dropping from a course before completing 10% of instructional time will have the course removed from their transcript. A record of the course attempted remains on the student's ledger and in the student's academic file. The following information is provided in compliance with the Drug-Free Schools and Communities Act Amendments of 1989.

### **EFFECTS OF DRUGS AND ALCOHOL**

Although individuals often use drugs and alcohol to achieve a variety of effects on mind and body that are found to be temporarily useful or pleasurable, drugs can be highly addictive and injurious. A person can pay a price in terms of his or her physical, emotional, and social health.

This price can be paid in a number of ways. The risk of contracting sexually transmitted diseases, including AIDS, is increased through unwanted or unprotected sex when one is under the influence of drugs or alcohol. Drugs can be the trigger for violent crime. Economic and legal problems usually follow directly when one tries to support a drug habit by resorting to crime. The dependence, illness, loss of job, and loss of family or friends that can result from drug or alcohol use and abuse can be tragic.

In keeping with the mission of Argosy University, Washington DC and the requirements of state and federal law, Argosy University, Washington DC has adopted this program to ensure a drug-free campus and workplace and to prevent the use of controlled substances and the abuse of alcohol.
